Ni Hao®

The *Ni Hao* series is a basic course for beginning students of Chinese. It provides students with the opportunity to develop communicative skills in both spoken and written Chinese at a basic level. The 'communicative approach' is applied in the design of this series of books. Language functions and notions are systematically incorporated in all topics and settings.

To enhance students' learning, a variety of learning materials ranging from books to software are included in the series. Each level of the series contains a textbook, a student workbook, a teacher's handbook, a set of audio cassettes, audio CDs and computer software.

The **Textbooks** features language that is structured, accumulative and reinforced. Each lesson in the textbook includes the following subsections:

- Illustrated conversation
- Learn the sentences
- New words & expressions
- Write the characters
- Something to know

Ni Hao Personal Language Lab is designed to let students practise all spoken aspects of the *Ni Hao* series. The programme is presented lesson by lesson with all conversation, drills and vocabulary accessible by on screen controls.

Students can:

- **Select** lessons & items within a lesson
- **Listen** to the dialogue, sentence patterns & vocabulary spoken by a native speaker
- **Record** & compare the student's pronunciation with that of a native speaker
