Distal Needling Acupuncture (DNA)

LEARN AN EASY AND LOGICAL ACUPUNCTURE METHOD THAT ALLOWS YOU TO SUCCESSFULLY TREAT OVER 90% OF CHRONIC PAIN WITH INSTANT RESULTS!

This method is over 2,500 years old and is derived from the I Ching. It is the synthesis of Dr. Richard Tan, Dr. Chao Chen and Master Tung's techniques. Distal Needling Acupuncture varies widely from the typical treatments and the results are far more effective and sustainable.

Use of the Distal Needling technique produces instantaneous pain relief often described as "turning off a light switch", enabling our practitioners to instantly and effectively treat pain. This style of acupuncture also helps to create a treatment matrix for some of the more difficult conditions which are resistant to other types of treatment.

DNA is so effective when it comes to pain relief that it has enabled Robert Doane to build the largest Chinese Medical Clinic in the United States.

What You Will Learn

During this two-day seminar, Robert Doane will demonstrate to practitioners the highly structured, easily implemented system of the DNA™ (Distal Needling Acupuncture™) for pain conditions and internal diseases.
