

INTEGRATED CHINESE

(3RD EDITION)

The 3rd edition of **Integrated Chinese** are all now available. This time-tested series has been fully updated to meet the needs of today's students with new communicative and interactive exercises, full-colour design, up-to-date vocabulary, enhanced cultural coverage, a diverse cast of characters and a realistic storyline.

This acclaimed, best-selling series owes its success to its integration of all four language skills: listening, speaking, reading and writing. **Integrated Chinese** helps you understand how the Chinese language works grammatically, and how to use Chinese in real life.

The series uses two types of exercises. Firstly traditional exercises such as fill-in-the-blank sentence completion and translation are used to help learners build a solid grammatical foundation. Secondly there are communication exercises including listening quizzes, speaking drills and discussion topics, to prepare for interaction in a Chinese language environment. Authentic materials written for native Chinese speakers, such as newspaper clippings, signs and tickets, are frequently used. Topics are relevant to students' immediate environments (family, friends, school, and work) and focus on practical competencies such as seeing the doctor, making an appointment, shopping and so on.
