

Latest Chinese Medicine Publications February 2019

Acupuncture in the Treatment of Children (4th Ed) *Julian Scott and Teresa Barlow*
Acupuncture in the Treatment of Children is the leading English-language textbook in Pediatrics. The authors describe nearly all the common childhood illnesses and conditions, together with a clear explanation of how they occur. This book is based on 40 years of clinical experience.

Special Price: \$127.50

Extraordinary Chinese Medicine: The Extraordinary Vessels, Extraordinary Organs, and the Art of Being Human *Thomas Richardson with William Morris*

This book provides a new way of looking at the deep connection between the flow of qi through the primary channels, the placement of the confluent points of the extraordinary vessels along the primary channel system, and Daoist conceptions of the evolution of consciousness.

Special Price: \$38.20

Electro Acupuncture Handbook for Musculoskeletal Problems

Stephen Lee
Drawing on his 30 years of clinical experience with electroacupuncture, Stephen Lee presents the treatment of a number of musculoskeletal conditions frequently seen in the clinic. This handbook contains a clear fully illustrated step-by-step guide to treating many conditions.

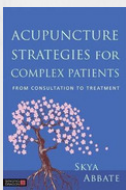

Special Price: \$42.45

Acupuncture Strategies for Complex Patients: From Consultation to Treatment *Skya Abbate*

Written by an experienced acupuncturist and educator, this book provides strategies which support the foundational energy of a person, including their qi, blood, yin, yang and essence. The book takes an integrative approach, providing insightful recommendations relating to diagnosis and the construction of treatment plans.

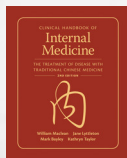

Special Price: \$46.70

Clinical Handbook of Internal Medicine (2nd edition): The Treatment of Disease with Traditional Chinese Medicine *Will Maclean, Jane Lyttleton, Mark Bayley and Kathryn Taylor*

This new edition draws on a much wider range of recent and classical Chinese medical texts, fusing traditional theory and treatment with the actual practices of a modern Western clinic. The characteristics and treatment of 88 common disorders are examined, including the differentiation of multiple patterns and variations of each illness. This edition consolidates the three individual volumes of the preceding edition into one book. Each entry has been extensively revised and updated, and new topics have been added, including men's health, lingering pathogens, diabetes and withdrawal mania.

Special Price: \$250.75

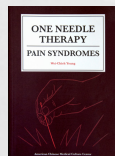

New Revised Edition!

One Needle Therapy: Pain Syndromes *Wei-Chieh Young*

In acupuncture, more is not necessarily better. Practitioners know that if they have properly identified the pathologies and are familiar with the theory of acupuncture, they can resolve pain with the use of only one needle. The effective use of one needle is both an art and a science.

Special Price: \$157.25

Balance Method Poster *Guy Polak and Adi Fromm*

The Balance Method Poster contains the summary of the mirror and imaging, the Matrix table, all 12 structures and the yin yang wu xing table. A must-have for all Balance Method practitioners!
Dimensions: 1m x 0.7m

Special Price: \$75.00
