Treating Trauma with Chinese Medicine

- Untying the Knot

PRESENTED BY

Lonny Jarrett

2 DAY SEMINAR
15th - 16th February 2025

Course outline:

In this class Lonny will discuss how to diagnose and treat trauma with Chinese medicine. We will consider the heart/kidney axis as the physiological foundation of stability and how to restore integrity to this most important relationship. He will emphasize the importance of the practitioner's awareness of the dimension of self that is never wounded or traumatized as a gold standard in diagnosis and treatment. In this regard, the practitioner's own integrity will be considered as the root of efficacy in treatment. The class will be rooted in an appreciation of the core dimensions and capacities of the self, including the spirit, ego, emptiness, soul, conscience, and the will.

What you will learn:

- Diagnosing and treating shock to the heart and circulatory system on the pulse.
- How to diagnose and treat qi stagnation in the diaphragm.
- Testing for and Draining "Aggressive Energy" Xieqi.
- How to understand and treat "possession" in a contemporary context.
- Diagnose and treating the separation of yin and yang.
- The deeper functions of Acupuncture points: Source, lou, xi-cleft, and "spirit" points.
- Herbal formulas and point combinations for taking a person out of shock.
- The importance of the patient/practitioner relationship.

Testimonials from past attendees:

I enjoyed the course immensely...I have gained insight into and confidence to be able to use Lonny's teaching. I refer to Nourishing Destiny and The Clinical Practice Of Chinese Medicine for my treatments and it was wonderful to hear Lonny speak.
